PHARMACEUTICAL SALES MANAGER | AI&DIGITAL TRANSFORMATION LEADER

Professional Summary

Nationwide pharmaceutical sales leader with 13+ years in the Egyptian market, responsible for the full product portfolio of a national manufacturer across retail, wholesale, and cash-sales channels, against an annual target of EGP 1.2 billion. Exceptional strength in the government sector: coordinated with the Presidential "100 Million Healthy Lives" initiative to supply thousands of Hepatitis C treatment packs, supplied neonatal intensive care units in government and private hospitals nationwide, supplied Health Insurance with anticoagulant therapy under the Ministry of Health COVID-19 treatment protocol, and delivered EGP 100 million in MOH and UPA tenders. Proven in entering new markets with new products, including a recent nationwide launch of a P-CAB therapy for acid reflux and H. pylori, supported by deep relationships with pharmacies, chains, distributors, pharmacists, and physicians. Leads a 24-person field and logistics team. In the past year, has applied Generative AI, workflow automation (n8n), and API integration to the commercial operation, and founded Ai Solutions (2025) to deliver revenue-focused automation to other organizations.

Core Skills

- **Pharmaceutical Sales Leadership:** Nationwide Sales Management, Retail, Wholesale & Cash Sales, Key Account Management, Quota Attainment (EGP 1.2B Annual Target), New Product Launch, Market Entry, Territory Planning, Distributor Management, Pharmacy Chain Management, Team Leadership
- **Government&Healthcare Market Access:** MOH Tenders, UPA Procurement, Health Insurance Supply, Presidential Health Initiatives, Hospital & NICU Business Development, Physician and Pharmacist Engagement, EDA Promotional Compliance
- **Therapeutic Areas:** Hepatitis C (HCV), Neonatal Care, Cardiovascular, Gastroenterology (GIT), Anticoagulation

- **Digital Transformation&AI:** Generative AI Adoption, Workflow Automation (n8n), API Integration, AI-assisted Application Development (Lovable, Replit, Claude Code), Process Re-engineering, Sales Analytics.
- **Operations&Finance:** Supply Chain Oversight, Demand Forecasting, Inventory Planning, Credit Control, Cash Flow Management, SAP ERP (SD), CRM Implementation

Professional Experience

Ai Solutions | Cairo, Egypt

Founder | 2025 – Present

- Founded and operate an AI and automation consultancy that designs business workflows, intelligent applications, and executive briefing platforms for commercial organizations.
- Convert sales, supply chain, and finance processes into automated, data-driven systems using n8n, API integrations, and Generative AI tools.
- Build revenue-focused solutions grounded in direct pharmaceutical commercial experience, so every system is designed around sales outcomes rather than technology for its own sake.

Inspire Pharma Egypt | Cairo, Egypt

National pharmaceutical manufacturer specializing in HCV, neonatal care, cardiovascular, gastrointestinal, and generic therapies.

Sales&Distribution Lead | 2024 – Present

- Own nationwide sales across the company's full product range in retail, wholesale, and cash-sales channels, covering all governorates, against an annual target of EGP 1.2 billion.
- Lead 24 professionals: 12 field sales representatives and 12 logistics drivers.
- Led the nationwide distribution of a new P-CAB therapy for acid reflux and H. pylori infection, applying experience in entering new markets with new products across pharmacies, chains, and distributors.
- Govern strategic partnerships with tier-one distributors, optimizing flow from factory release to final delivery.

- Oversee the full revenue cycle, including credit management and secure collection of financial instruments, sustaining strong cash flow.
- In the past year, introduced AI-enabled workflows (n8n automation, API integrations, Generative AI) that connect sales forecasts with production planning, increasing sales productivity and reducing stockouts and administrative workload.
- Earned the Q1 Target Achievement Award, GIT Franchise (2026).

Key Account Sales Specialist | 2019 – 2024

- Led government and nationwide sales across retail, wholesale, and cash channels, including MOH and UPA tenders worth EGP 100 million, with command of government entities and every public and private hospital in the country.
- Coordinated with the Presidential "100 Million Healthy Lives" initiative, supplying thousands of packs of Hepatitis C treatment (ledipasvir- and sofosbuvir-based) and bringing more than 250 million pounds to the company.
- Supplied apnea-of-prematurity therapy to neonatal incubator units in government and private hospitals nationwide, drawing on a complete map of every hospital with a premature-infant unit.
- During theCOVID-19 pandemic, secured nationwide quantities of two anticoagulants (rivaroxaban and apixaban) for all Health Insurance entities under the Ministry of Health treatment protocol, and held market leadership in cardiovascular medicines through to today.
- Expanded the GIT franchise through public and private hospitals and NICUs.

Sales Coordinator | 2015 – 2019

- Coordinated daily logistics with 100% order fulfillment accuracy, serving as the key link between the Scientific Office, Finance, and Sales.
- Implemented early-stage CRM and market-mapping databases covering thousands of SKUs, improving follow-up rates and client retention.

United Company for Pharmacists (UCP) | Cairo, Egypt

Key Account Sales Specialist | 2013 – 2015

- Managed high-volume procurement and inventory cycles for major pharmacy chains and tier-one retail accounts.

- Built a foundation in pharmaceutical distribution, retail patterns, and therapeutic classifications within one of Egypt's largest distribution groups.

High Travel Agency | Egypt

Operations&Systems Coordinator | 2010 – 2013

- Managed networking systems and reservation databases for high-speed ferry services on the Nuweiba–Duba line.
- Directed planning and operational set-up of a new passenger terminal at Safaga Port.
